Enclosed are the annotations Bud made on my original letter and my own rough inventory of what he actually sent. You are correct in thinking you saw some copies but they were not included.

If Possible I'd like very much to have a xerox of the Hart Nosenko testimony and related exhibits (HSCA) in time to be able to annotate them for Mangold. My own use, of course, would be later. I can lend him what I annotate and he can return it later.

What is not included in the misc. Duran pages is any of the initial CIA releases, first batch. That holds some of the Mann insanity and the CIAHQ cable asking its station to try to see to it that the cops don't beat Duran up again. FBI records Bud sent and the HSCA transcript (Ugornwell interrogating) refer to a nervous breakdown.

Nothing on Hal Hendrix enclosed. A Hoch memo was.

The Nosenko stuff is an extra copy, Bud's note says.

Of Bud's note on the back side one in particular interests me. When David Zitch was in high school he did some indices checks for me and gave me a handwritten list of Mullen offices, about four, and some of them coincided with both Gaudet and the Free Cuba Committee. I've mislaid the originals he sent me, Years ago.

Some of these notes appear to be what I told you for him.

Best,

xerox of John L. Hart's and Richard Helms' HSCA testimony

Lesar once told me that you have CIA records indicating the volume of Oswald records it once had and the great percentage of them it could not now account for and claims it does not have. I'd appreciate this so that I can use it and cite its source.

xerox of Blakey's narration on Duran and her not being a witness. *Vols + on Duran file*

CIA hq instructions to Mexico City to intercede so Duran would not be beaten up again. This is in the earliest releases but I made no subject-filing copy and would have to search for it.

There is much in those releases reflecting Mann's desires that could have meant World War III, if you made and can easily get copies of them, again so I do not have to search. The Mexico City station appears to have bypassed HQ in sending this kind of inflammatory nonsense to either the White House or State or both. So much was based on the obvious Alvarado Ugarte fabrications HQ ordered the station to break him and not until then did it try.

Anything definitive on the interception(s) in Mexico City? *Since HSCA* **(No)**

Anything new on Nosenko? I *(FBI)* do have a little I'll be using and remind me to tell you about some of it. They are withholding much on a phony claim and the CIA has disclosed nothing.

Anything on the apartment the Oswald's had in Holland for three days? I think I picked this up in an executive session transcript. *See Mary Cant find a thing*

Pinpointing of first use of Oswald as a red? *on Nov 22* Anything indicating that this did begin with that army intelligence unit? *Hal Hendricks See Nov*

What ^{fact} you think I should be using and what you think (theory) I should consider.)

Did you learn anything about Oswald in Mexico that was not in my file? *Yes, agent's file*

Where in HSCA's appendix is what it used on Nosenko? Is it too large to xerox for me?

If you have what was used in Hart's testimony, like Miler's(?) handwritten notes that is clearer than what I'd xerox from the printed stuff I'd like copies to use. (I did not buy Sylvia's index.) *Extra copy* **(Yes)**

Did you ever get anything of substance with regard to those Mexico City pictures? Any thing of substance on why that particular one was said to be Oswald? Or how? **(No)**

anything new on Alexie Davison? Did you know he was a "drop" for Penkovsky? **(No)**
